

# camRade rainCover Handheld Small

**Name:** camRade rainCover Handheld Small

**SKU:** CAM-RAINCVR-HANDHELD-S

**EAN-13:** 8718591673443

## Short description

Universal protection cover for most small sized Sony, Panasonic, JVC & Canon handheld videocameras. Includes a water-resistant storage pouch.

## Long description

Protect the Sony, Panasonic, JVC and Canon small sized video camera against inclement weather with the rainCover Handheld Small. With this universal rain cover for palm-sized video cameras, you can now protect your equipment from the elements without sacrificing your shot.

Through years of experience and working closely with multiple camera operators, we have improved the designs to perfect solutions for multiple applications. The rainCover Handheld Small is suitable for handheld camera work but is also great while your camera is attached on a tripod, pedestal, or any other camera support solution.

### Durable and functional design

Always carry the camRade rainCover Handheld Small with you so you do not get caught out when the weather turns. The cover is supplied in a waterproof zippered pouch, which you can use to store and transport the cover. It is easy to attach and detach the cover, thanks to the convenient design. The rain cover consists of two parts: a cover for the camera body and a cover for the (removable) top handle of the camera. The top cover can be attached to the body cover with hook-and-loop fasteners. Leave the bottom open for easy access or close it with the double straps if the wind plays tricks. The blue sliding rail makes it possible to bring the buckles to the desired position when the camera is mounted on a tripod.

### Clamps around the lens hood

Thanks to its 32 cm (12.6") rubber strip, the rainCover fits correctly to fixed lenses and small lens hoods. The strap supplied with a hook-and-loop fastener makes it possible to tighten the cover on the lens hood but still lets you operate the lens, due to its spacious design.

### Easy access to what is important

With several hook-and-loop openings you can easily access all essential parts of the camera. From an opening for MI shoe connectors, batteries and viewfinder, to a transparent window on the side for the cameras' foldable LCD monitor, this rain cover has it all.

## Key features

Weight: 0.4 kg / 0.9 lb

## Why camRade?

camRade was established in 1998 and has an extensive track record of protecting broadcast and film cameras. Since the start of camRade, the team of people behind the brand have continued to work closely with several audio and camera operators, broadcasters, and rental companies. Today we can say that we are the recognised world leader in camera protection.

## Why do I need a camRade rainCover?

Imagine how you would feel if your camera stopped working. A camera with water damage could be considered a total loss if the repair costs are too high. What if you could have prevented this by using a camRade rainCover? Your camera is often your most valuable piece of equipment while gathering news or during field productions. The durability and unique features of the rainCover Handheld Small will protect your investment in a way that plastic bags and other cheap covers cannot.

## Highlights / Unique Selling Points

Attach or detach the cover in seconds, whether used handheld or on a support plate.

When filming handheld, use the opening to access the handgrip.

Rubber strip on the front of the cover ensures seamless closure.

The clear vinyl window allows for easy viewing and rotation of the LCD monitor.

Bring the buckles in the desired position with the blue sliding rail.
